FORMER LA CROSSE GIRL IS WRITER

Daughter of Judge Daniels
Writes on California
Situation in the
Woman Voter

Under the title "What Has Become of the Antis in California?" Lucy C. Daniels Thompson of New York, daughter of Mr. and Mrs. John A. Daniels of La Crosse, both prominent in the woman's suffrage cause, has added a strong argument to the many for equal suffrage in a two-page article which appeared in a recent issue of The Woman Voter, a party organ published in New York. Mrs. Thompson goes into the situation in California with keen insight and direct dealing with facts. She maintains with considerable logic that politics in California has undergone a thorough renovating by the admission of women to the voting booth. Her article is given in full as follows:

"We know that there were antis in California before the suffrage amendment passed. We used to hear of them occasionally, especially after Miss Minnie Bronson, with that 'blind side' toward suffrage matters, which makes her such a star performer in the field of partisan advocacy, was sent out from the east to encourage them in their perverted attitude towards the enfranchisement of their sex. We know that there were enough men in the state opposed to suffrage to reduce the majority in its favor to the narrow margin of a few thousands. We know that immediately after the passage of the amendment, a petition was circulated asking for its repeal, and we are told that this petition had thirty thousand signers.

"Naturally, knowing these things, we might have expected, on going into the state at the time of the presidential primary campaign, to find in May, only a few months after the amendment had passed, to find the band of women who had worked for suffrage pushing their way into the political life of the state with great difficulty, meeting with obstacles and opposition at every turn. But we neither expected nor found anything of the kind. We couldn't get the sensation even of being in the midst of an experiment. That stage had been skipped apparently. Equal suffrage had become a fact in the life of the state, and with the admission of women to full citizenship, all the old antagonisms and questionings had dropped out of sight. The women were going about their political duties with the air of veterans, receiving from the men, the former holders of the citadel, not only a hearty welcome, but marked consideration and respect. They were to be found in the political headquarters, helping in the arrangement of meetings and the assignment of speakers; they were present in large numbers at all of the great political gatherings, while the best of the speakers were detailed also to present the issues of the campaign to them separately at their own clubs and special meetings. There was nothing in the appearance of things to show how recently the great change had been wrought. What did it mean? What had become of the forces that had fought against this new order?"

"It's a mere matter of minds. The type of mind which characterizes the anti-suffragists, takes its stand always on that which exists. When a change is proposed, it fights. It thinks it is fighting only the change. Set things ahead a little. Let the change be accomplished, and at once that becomes to a mind of this type the established order, serving as a new proposed change.

"Let me give an illustration or so. I was told of a family of bitter anti-suffragists in southern California, a mother and her two married sons. 'If my wife should ever vote,' said one of the sons, 'she would cease to be wife of mine.' When he registered this spring, his wife went with him and registered also. When the other daughter-in-law registered, the mother accompanied her. Matters which concerned them were to be voted upon and their votes had become valuable assets.

"A young man told me that he had been strongly opposed to woman suffrage and had done his 'little best' to prevent the passage of the amendment. 'But it went through,' he said, 'and I mean to get all I can out of it. I've had my wife and sister register, and we'll cast three votes in our family this year instead of one.' Incidentally he implied that his was the master mind and that the votes would be his. I wondered.

"In a certain exclusive district of San Francisco, the majority against equal suffrage was very large, indicating, of course, not only that the men were opposed; but that the women were either opposed or indifferent. But one of these women told me that she and most of her friends had registered and expected to vote. Their husbands had urged them to do it, she said. Why? Because their votes were needed to represent in due proportion the interests of their class. You may not like this reason but it is a legitimate one. In a true democracy every voice must be able to make itself heard, presenting its individual needs and desires. Education, not suppression, must be the watchword. Social justice will be done only when the majority has come to see that the interests of the individual are best served when the interests of all are well served.

"The moral of these little stories is that people are not always actuated by motives they think they are, and that the pet arguments of the anti-suffragists—the disrupted home, the neglected child, the de-womanized wife and mother—cease to be boogies when viewed in the light not of a proposed change but of an accomplished fact. A man who thinks he opposes suffrage on all these grounds in the mall may find himself going

HOLMES IS OUT FOR ASSEMBLYMAN

Business Manager of La Follette's Magazine Announces Candidacy for First District

MADISON, Wis., July 27.—Fred L. Holmes, business manager of La Follette's Magazine and a well known former newspaper man, announced his candidacy today for the assembly to represent the First district of Dane county. Nomination papers for his candidacy on the republican ticket were put in circulation today. Mr. Holmes is a native of Omro, Winnebago county, and came to Madison ten years ago to enter the University of Wisconsin, from which he was graduated in 1906. Following work on the staff of the Wisconsin State Journal and experience as legislative correspondent for several newspapers, he joined Senator La Follette's Magazine staff as business manager in September, 1909. Mr. Holmes will be supported by Dr. C. A. Harper, present assemblyman; Michael B. Olbrich and other well known republican leaders.

to the registration booth and to the polls with his wife in the spring without misgivings or fears. This is what happened to a large number of men in California who were opposed to suffrage.

"And the women? Accepting the dictum of the Outlook that all women are not actively favoring suffrage are opposed, we shall have to include among the anti-suffragists, both those active in opposition and the indifferent. Among the indifferent there are two classes also, those who are only waiting for the right appeal, and those of such narrow natures that no appeal can arouse them to a sense of responsibility. The men and women of the latter class furnish the chief problem in democratic government. We might theorize that wherever the franchise is extended to women, the women to make use of it would be, first, those previously in its favor; second, those who had previously been actively opposed—conservative, but of too positive and militant natures to be willing, when their fight against the new order had failed, to leave the conduct of affairs wholly in the hands of their suffragist sisters; and third, the previously indifferent, who needed to arouse them just the stimulus which the granting of full citizenship supplied. This theoretical grouping fits perfectly the facts as observed in California.

"Those who were active in the suffrage movement, of course, continue their activity, splendidly equipped for their new duties by the experience gained in the suffrage campaign. They are to be found leading in all the new undertakings by which the women of the state are seeking to realize the purposes for which they asked the ballot. They have been joined, with the enthusiasm of the recently converted, by those to whom suffrage has opened up a new world of opportunity. I met in San Francisco an old friend who had been among the indifferent, an earnest, thoughtful woman, but with interests previously limited to the traditional woman's sphere. 'I couldn't possibly tell you,' she said to me, 'all that the mere fact of having the suffrage means to me, how wonderfully it has broadened my life, how it has filled it with new interests. I feel both a new respect for myself and a new responsibility toward the community. My eyes have been opened to a multitude of things which never before made any impression upon me. It's like beginning life anew.'

"A woman of a different stamp, a society woman whose life had been largely devoted to pleasure, told

much the same story of her own experience. The realization that she had been lifted from her position of irresponsibility to one of co-responsibility for all public action, came to her as a breath of new life, filling her with new purposes. She had abandoned bridge and similar diversions, and set to work enthusiastically studying social and political conditions, 'trying,' she said, 'to make up for all the time I have wasted.' This sounds like the testimony of a religious convert at an 'experience meeting.' And it rests indeed on a similar basis, the coming of a great interest to lift one above self, out of the narrow life into the broader one. These formerly indifferent women are the ones who are filling the civic leagues in California and the study clubs, preparing themselves earnestly for their new duties.

"And many of those who were actively opposed to suffrage are also to be found in the political ranks, seeking to preserve by the use of the ballot the status quo, which they once hoped to preserve by the denial of the ballot. This statement, of their purpose is fair, however, only as applied to the class. There are notable exceptions, women sincerely interested in social reforms. With the necessity gone, which their conservative natures laid upon them, of trying to maintain a passing order, these women are joining with their freed energy in that task of bettering and sweetening the common lot, upon which the women of California have entered with a clearness of vision, a steadfastness of purpose and an orderliness of effort never exhibited before by any newly enfranchised body of voters."

WOULD YOU LIKE TO KNOW WHETHER OR NOT YOU'RE IN LOVE?
THEN GET AN "EROMETER"—LATEST INVENTION—AND FIND OUT

A New York man has just invented a device called the "erometer," which he says will solve the vexing problem of "when we are in love." By the use of this machine the doubting young maiden may decide for herself the vital question simply by dining with or talking to the man who she thinks is her ideal. The "erometer" is made in the form of a bracelet, smooth and hollow like a tube bent into a ring. Inside the hollow tube is a tiny slip of paper, and an electric needle which responds to every deviation of the pulse, whether above or below normal. If one is in love, of course a high pulse would be recorded during the time he or she was in the presence of the adored object. The cartoonist tries to show us some of the things that will happen when the "erometer" comes into general use.

CARNIVAL WILL BE
HERE TOMORROW

Hatch Shows Will Get to North Side from Madison Some Time Sunday

The J. Frank Hatch Shows who furnish the attractions for the north side carnival next week will arrive tomorrow over the Northwestern from Madison where they are furnishing the attractions for the baseball club this week. Reports from the latter city speak very highly for the shows. Their special train of sixteen cars is scheduled to arrive at 2 o'clock tomorrow afternoon and the unloading will be started at once.

This attraction is the first of its kind to ever exhibit in La Crosse. Briefly described it is a combination of water sports and pastimes, with which is mingled a series of sensational exhibitions of trick and fancy diving, as well as a demonstration of all forms of swimming. There will be rolling contests, high diving, besides a laughable pantomime, which is said to be of a highly original nature.

The main feature of the circus will be the disappearing ballet, which is an exact spectacle shown at the New York hippodrome, and which consists of a ballet of water nymphs, who, enticed by King Neptune, accompany the father of the ocean to the submarine palaces of its depths, never to appear again.

Other features include the LaRose electric fountain, dog and pony show, the beautiful Electrica, the congress of all nations, the life of the American convict, the crazy castle, the big wonder show, the Siberian giant and a dozen other attractions, including Ferris wheel, merry-go-round, etc.

This enterprise also carries a concert band of 20 pieces.

Family Groups.

I know some people who have been indulging in a family group. Which is all right, if they feel that way about it. But where are they going to keep it? I have one down cellar and another under the bed and a third in storage. There was a mistake made in the order, so we each got three apiece. Any one has a right to be in a family group, but no one has a right to show it to his friends.—Exchange.

Lead Pencils.

I don't think I'm exactly lazy and I have a fair amount of intelligence, but cannot sharpen a lead pencil. I've been trying to learn for—well, I don't say how long, but it's many, many years. I couldn't sharpen them when I was little. I couldn't sharpen them when I was big. I can't sharpen them now that I am bigger. Pencil sharpeners don't sharpen them any better than I do. Or than you do, I wager, if you're a woman! When I do I shall hire a man to sharpen my pencils for me every morning.—Exchange.

Kaw Indian Chief Remembered.

Henry Bluejacket, a celebrated Kaw Indian chief, visited central Missouri in 1833. He spoke English well, was gentlemanly and agreeable in his deportment. He was physically large and handsome. His dress was a loose sack hunting jacket of blue cloth with fringed buckskin leggings and moccasins and a foxskin cap. Contrary to the usual custom among Indians, the Kaws usually wore caps on their heads made of fox, coon or wildcat skin.

Declined With Thanks.

Human Happiness.

Well-being and happiness are not an inheritance of which we take possession at birth and which we are destined to enjoy at our ease; they are to be searched after with unremitting assiduity. We enter into life destitute of everything but simple existence. All that we enjoy in our passage through life are acquisitions; they are the result and the rewards of our own diligence and care, or communicated by the diligence and care of others.—Cogan.

Discreditable Point.

It is in every way creditable to handle the yard stick and to measure tape; the only discredit is in having a soul whose range of thought is as short as the stick and as narrow as the tape.—Horace Mann.

Chinese Medicine.

Chinese medicine may be regarded to some extent as a survival of the dark ages, much of it being based upon a belief that all diseases are due to supernatural causes and are mainly occasioned by offended evil spirits which the native practitioner seeks to propitiate or drive off by charms, incantations or other devices.

WEST CALLS FOR
HARVEST HANDS

3,000 Men Needed to Harvest Bumper Crop in Minnesota, Dakotas and Montana

ST. PAUL, Minn., July 27.—With the outlook for bumper crops in the northwest, far better this year than it has been for the past seven years, an urgent call has been sent out for harvest hands by the farmers and land owners of the territory. Figures supplied by the Chicago, Milwaukee & St. Paul railway show that employment can be found at once in the Dakotas and Montana for at least 3,000 farm hands, with the wage ranging from \$2 to \$3.50 per day.

Harvest Ten Days Off

The wheat harvest will be in full swing within the next ten days and work can be had up until fall. For the last seven years crop conditions in the northwest have been such that harvest hands could be secured from that territory, but on account of the showing of the crops this year it will be absolutely necessary that farm hands be shipped there from the larger cities of the middle west to assist in caring for them.

The railroads are exerting every effort to send men to the aid of the northwest farmers. Railroad laborers in some sections are now deserting their work and hiring out to the farmers. Employment agencies in the Twin Cities have been unable to give much assistance to the land owners in the northwest, as the labor market in those cities and adjoining territory is limited this year.

Labor Scarcity Alarms Farmers
This shortage of harvest help has given the farmers great alarm. Requests have been received from the following towns: Aberdeen, S. D., needs 400 hands; Abercrombie, N. D., 150; Andover, S. D., 100; Corona, S. D., 100; Erwin, S. D., 100; Ellendale, N. D., 200; Edgely, N. D., 200; Howard, S. D., 100; Hickson, N. D., 100; Wheaton, Minn., 200; Langford, S. D., 200; Mellette, S. Makes Unique Home.

In Zarantoko, Spain, a case has occurred which is probably unique of its kind. A child has just been born while his father, grandfather, great-grandfather and great-great-grandfather are all living. His name is Urticococha, and the family are Basque farm laborers. The great-grandfather and the great-great-grandfather have acted as godfathers to the latest arrival. The united family constitutes nearly a whole village.

And the Rest Was Trivial.

She—"I don't see any sense in your objecting to Mr. De Buville being invited to the house." He—"Why, you know he's been shown to be a man of no principle or character, a man who had to leave his country to escape the law." She (impatiently)—"That's very true; but no one can say he's not a perfect gentleman."—Time.

Australia Would Save Birds.
Strong protest is being made in South Australia against the continual slaughter of such rare birds as the ibis, the egret, cranes and spoonbills to supply the demands of milliners. The slaughter renders South Australia even more prone to plagues of grasshoppers, and is a prime cause of the decline of its fish resources. As the wading birds disappear the crustaceans that destroy fish spawn increase in multitude.

Mirage Easy to Be Seen.
The celebrated Pata Morgana, a presentation of natural "moving pictures" on an immense scale which is occasionally seen in the Straits of Messina, is explained by a scientific writer as being a mirage, such as frequently occurs in various parts of the world; "in fact," he says, "one may see a mirage any day by looking through the stratum of air overlying a hot stove, or adjacent to the side of a wall heated in the sunshine." Young scientists will be interested in verifying this statement.

Scenes That Inspired the Most
Famous Civil War Song

Julia Ward Howe's "Battle Hymn of the Republic" was Written After a Visit to the Volunteer Camps Around Washington, in the Fall of 1861—Civil War Photographs Just Discovered Show These Volunteers Drilling Just as She Saw Them.

AT DRILL—A CIVIL WAR CANNONEER (Redrawn from a photograph)

The swinging rhythm of "The Battle Hymn of the Republic" brings to our mind some of the stirring and enthusiasm that filled the nation in the fall of 1861. But greater inspiration is found in many of the photographs, secured for readers of this newspaper. They bring back the very scenes that moved Julia Ward Howe to write her imperishable song.

We see long lines of men with shining buckles and bayonets in their "hundred circling camps." We watch file after file march by, carrying burnished rows of steel. We look upon the young volunteers, their faces set with patriotism, as if they were conscious that "His truth is marching on."

"It was just such scenes that inspired Mrs. Howe to write the poem. On her first visit to Washington in the late fall of 1861, she witnessed a review of troops on the Virginia side of the Potomac. To beguile the rather tedious drive back to Wash-

ington, the party sang many songs, ending with "John Brown's Body." She was asked why she did not write some suitable words for the rousing tune. She replied that the inspiration had never come to her.

But in the gray of the next morning she awoke. She thought of the events of yesterday. As she lay there the long lines shaped themselves in her mind. She arose, and without lighting a lamp she wrote them down with an old stub of a pen. The result was the "Hymn" which has rung out on many a weary march and around thousands of crackling camp-fires:

Many eyes have seen the glory of the coming of the Lord:
He is trampling out the vintage where the grapes of wrath are stored;
He has loosed the fateful lightning of his terrible swift sword:
His truth is marching on.

Answer of a Soldier.
When Napoleon was a student at
Brienne he happened to be asked by
one of the examiners the following
question: "Supposing you were in an
invaded town threatened with starva-
tion, how would you supply yourself
with provisions?" "From the enemy,"
replied the sub-lieutenant of artillery;
and this answer so pleased the exam-
iners that they passed him without
further questioning.

RIVAL MISSIONS IN ORIENT MAKE WORK
HARD, SAYS WIFE OF BISHOP McDOWELL

Mrs. William F. McDowell.

Competition in mission work is one explanation of the difficulties in
evangelizing the people of the orient, according to Mrs. William F. McDowell,
wife of the well-known Methodist bishop. She accompanied
her husband on a tour of the orient a year ago. Another reason, she
says, is that the non-Christian religions are themselves active. She is
not discouraged, however, and says that all that is needed is the con-
tinued work of education and the preaching of the gospel.

HERTZ THE REAL DISCOVERER

Marconi Made Practical Success of
the Wireless, but Was Not First
in the Field.

The principle of wireless telegraphy
is easily comprehended. As is known
light and heat move in waves whose
lengths can be measured. Thus, the
sun gives out in every direction light
in a series of undulating waves which
may not only be measured, but can be
deflected, polarized, and so on. Some
idea of this may be gained from the
well-known fact that when a stone is
thrown into a smooth pool of wa-
ter a series of circular waves extends
in all directions. If any floating ob-
ject comes within these waves they
are oscillated.

It was the lamented Prof. Hertz
who discovered that electricity, like
light and heat, also moves in waves
which may be measured. Just precise-
ly how these waves pass through the
atmosphere is not wholly understood,
but it is believed that they have some
relation to ether, which is omnipres-
ent and which is believed to constitute
all matter under different negative
electrical conditions. In wireless tel-
egraphy a series of Hertzian waves
are set up by powerful electrical dyna-
mos or batteries, and these are dis-
charged from the top of a high mast
or pole. These waves extend in all
directions, and unless their force is
expended by distance they excite cer-
tain effects in the receiver of wireless
telegraph instruments within the zone,
just as the waves disturb chips on a
pool. Messages are sent and received
somewhat on the plan of ordinary
Morse code by wires, in that electrical
impulses are regulated so as to spell
words according to a code.

To Marconi belongs the credit of
making a practical success of the dis-
coveries of others, but to Hertz be-
longs the credit of making the sys-
tem possible.

LOTS OF MONEY BUT IS BROKE

Government Treasury Has
No Appropriation to Ship
Out Coin and Short-
age Is Felt

WASHINGTON, July 27.—The
United States treasury is in the odd
predicament today of having lots of
money, but being unable to pay for
its transportation to sub-treasuries
where the money is needed. As a
consequence there is a shortage
among the treasury branches of \$1,
\$2, and \$5 bills. Moreover, there
will be no relief until congress
straightens out the tangle of its big
appropriation bills.

Congress failed to pass the sun-
dry civil bill before the new fiscal
year beginning July 1, and to keep
the wheels of government in motion
it enacted a resolution extending,
to the amount of one-twelfth, the
old appropriation bills.

It happens that the demand for
the movement of money is always
unusually large during the first part
of the fiscal year so that the July
appropriation does not meet the de-
partment's needs. At present the ap-
propriation is about exhausted and
the sub-treasury officials are crying
for small bills.

PROBE VETERAN'S DEATH.

NEW YORK, July 27.—The cor-
oner today ordered a rigid investi-
gation into the death of Col. Louis
T. Roquette, eccentric British bac-
elor, found dead in his Seventh
avenue apartments. Col. Roquette,
whose fortune was estimated at
\$3,000,000, and who was decorated
for bravery in the Boer war, was
56 years old, and retained a suite
at the Hotel Plaza, but for several
weeks had occupied the Seventh
avenue rooms. A cursory examina-
tion by a coroner's physician showed
that the colonel's skull was frac-
tured. An autopsy indicated that
the injury killed him.

Time and Place.

A little six-year-old Philadelphia girl
was sent to the family physician for
a vaccination certificate, so that she
could enter school. The certificate
required the date of vaccination. Not
remembering when he had done it, he
said, "Janet, how long are you vac-
cinated?" To which Janet innocently
replied, "Here it is on my leg, about
an inch long."

Longevity in French Villages.

A remarkable record of longevity is
to be found in some of the rural pa-
rishes of France. In the village of St.
Thomas de la Fliche there have been
only fourteen parish priests in three
hundred years, the fourteenth being
still in possession. The parish of St.
Germain du Val, in Paris, has had only
three pastors in one hundred years,
while that of Givry en Argonne has
had but five in 130 years.

Deserving of Sympathy.

"I am the mother of 21 children,"
declared a woman at Tower Bridge po-
lice court, who was alleged to be an
habitual drunkard, "and I have always
made my children's clothes, mended
their boots, and cut their hair." "We
all sympathize with you," remarked
the magistrate, Mr. Cecil Chapman.—

PASSED AN UNQUIET NIGHT

Traveler, Lost in the Bush, Was Glad
to Do Without the Blessings of
Slumber.

But I had never given a thought to
the course I had taken in my gallop
across the veldt. I kept on and on, and
before long it grew dark and some-
what cold. So I dismounted, and af-
ter thinking it over, I knee-haltered
the horse and let him go, crept head first
into a large ant-bear hole for a night's
lodging, and made myself as comfort-
able as possible under the circum-
stances, using the blesbok hide for a
blanket. The night was dark as
pitch.

Sleep was out of question. I sup-
pose it was the haunches and the raw
hide that attracted the creatures, but
before long it really seemed as if I
had settled down in a village of wild
pigs and insulted the whole commu-
nity. To begin with, squealing incess-
antly, they seemed to be racing round
and round in a circle, taking me for its
center. Then a number of jackals
drawing nearer and nearer, joined in
the chorus. But I soon discovered
that if I disliked the noise I fairly
dreaded the silence. During the quiet
spells I knew that something was
chewing industriously at the project-
ing ends of the raw hide in which I
was enveloped. It was hard work for
me to keep from kicking incessantly,
but whenever I rested for a minute
the chewing developed into vigorous
tugs, the significance of which it was
easy for one in my position to appre-
ciate.

However, I kicked the night through
in safety, and early in the morning, to
my delight, I found my horse a short
distance away, nibbling contentedly at
his breakfast.—Atlantic Monthly.

ing out for immortality.

WILD WEST--FAR EAST

UNRIVALED FOR ACTION—
WITH BUFFALO BILL AND
PAWNEE BILL PRESENT
AND DIRECTING

Always with something novel add-
ed to their standard offerings, un-
withered by time, Messrs. Cody and
Lillie thus refresh their always wel-
come exhibition.

This year an old time cross coun-
try "fox hunt," with hounds on the
trail of the quarry and veteran hunts-
men mounted on experienced thor-
oughbred huddlers—high jumpers
with international records—led by
the famous "stayaway," will show
in realistic manner how our ances-
tors enjoyed a rational sport that
should be revived to bring the coun-
try lads and lassies to a realizing
sense of the possibilities of enjoy-
ment in a country life.

Max Gruber's elephant "Minnie"
and sextet of co-workers in a most
astounding series of gambols, sky-
larking, cavorting and feats of grace
and skill cannot fail to prove to the
beholder that an old axiom can be
reversed, and that realization can ex-
ceed anticipation.

Fred Gerner, the all-round athlete,
does some clever high jumping over
a hurdle in a contest with the crack
high leaping equines. The Vin-Fiz
company's six dapple grays—London
and New York blue ribbon draft
team, equipped as when commended
by the late King Edward VII, driven
by the expert manipulator of the
ribbons "Billy" Wales, will be in evi-
dence with arenic round enough to
show the exquisite sense of touch
necessary to be a finished "whip."

The Fridkin's group of Russian
Peasant dancers—a new style of
seating and arenic view, appropriate
scenery, are a few of this season's
innovations.

Horsemanship feats are still a
prominent part of the great histor-
ical exhibit. There are equines from
every clime, ridden by native horse-
men, who typify the various styles of
saddle work known throughout the
world. Cossacks from Russia, fear-
less Arabians upon their native
steeds, American Indians on their
spotted ponies, and our own cowboys
on their fractious and bucking bron-
chos.

There will be Indian battles, war
dances and pow-wows; and Oriental
spectacle, exhibitions of native
history and historic types, and many
scenes and incidents to arouse en-
thusiasm and send the blood tingling
from excitement. The pony express
and overland stage coach, showing
the primitive methods of travel; the
methods of barbaric warfare and
other scenes accurate and instructive
will go to form a program of un-
common interest.

Important Question of Dress.

Lord Chesterfield says: "I would
rather have a young fellow too much
than too little dressed; the excess on
that side will wear off with a little
age and reflection." To be as well
dressed for all occasions as a man's
means will permit shows self respect
and not conceit as ignorant people
sometimes imagine. Society in-
variably looks on young men with a
partial eye, but it likes to see them
well dressed.

Even in seeking after happiness
some people sit down and expect it
to overtake them.

WEEK FINANCIAL

(Copyright, 1912, by New York Evening Post.)

NEW YORK, July 27.—Trading on the stock exchange was utterly stagnant, many of the usually active stocks hardly appeared on the tape during the first hour. Toward the close the market almost stood still. Prices were in the main unchanged from yesterday. The incident in the day's news of chief importance was the rather sharp break in sterling exchange. At the low price of the day the market showed a decline of one-quarter cent, compared with the high level of yesterday.

The fortnightly bulletin of the American Railway association indicated an addition of 4,658 cars to the supply of unused railroad equipment as of July 18 last. This gain reflected the reduced inquiry for coal cars. In London there was a continuance of the activity seen yesterday, in the railroad list and the market was fairly cheerful.

Rise in sterling exchange this week to the highest level touched for two years occasioned a good deal of surprise, because such a movement was not expected. In view of the excess of exports over imports in our foreign trade for the fiscal year just ended, and the large indebtedness year just ended, and the large indebtedness due us on account of the temporary advances made by our banks to the Berlin and other markets.

NEW YORK, July 27.—The weekly actual bank statement shows the following changes:

Loans, increase, \$6,879,000; deposits, increase, \$7,772,000; circulation, decrease, \$324,000; specie, increase, \$3,108,000; legal, decrease, \$228,000; cash reserves required, increase, \$2,807,300; cash surplus, increase, \$2,700; a year ago there was an actual surplus, including trust companies admitted to the clearing house of \$17,745,450, and two years ago a surplus by banks alone of \$47,636,525.

Thursday afternoon Miss Marie Schaeffle entertained a number of her friends at her home, 120 north Sixteenth street, at a delightful porch party in honor of her guest, Miss Muriel Vogalli of Minneapolis. Those present were: Carmel Young, Dorothy Smith, Margaret Morris, Carol Cotton, Helen Smith, Kathryn Morris, Marjorie Boschert, Irene Esch, Edna Shirley, Frances Egbert, Charlotte Smith, Edna and Hazel McWiley, Mary O'Connell, Charlotte Rhimutz, Eleanor Schweitzer, Miss Kennutz, Muriel Vogalli and Marie Schaeffle. Miss Eleanor Funk and Louise Schaeffle assisted Mrs. Schaeffle in serving.

WILSON FINISHES LENGTHY SPEECH

Address of Acceptance for Nomination Concluded and Governor Comes from Retreat

GOES BACK TO HIDING

Engagements Are Cancelled and Democrat Nominee Returns to Seclusion

SEA GIRT, N. J., July 27.—Governor Wilson's speech of acceptance is in many pages of short-hand notes at his summer home here today. The governor brought it with him from his "retreat" by motor today. He does not know how long it is and has no way of telling until it is typed.

The governor has written short-are detail hand for forty years. His notes are letter perfect and he has no difficulty reading them when they are "cold." He writes in a fine hand, crowding many words on a single page.

As soon as the governor has revised the typewritten copy of the speech he will entrust it to his secretary, Walter Measday, for printing. Measday is holding himself in readiness to rush to the printer without loss of time, probably Monday morning, and to have it set up ahead of anything else the printer may have in his shop.

Senator Gore was expected to come to Sea Girt today for a short conference with the nominee on the plans of the campaign committee. The senator and Mrs. Gore were at Asbury Park last night. During the past few days scores of letters have come here from every section of the country and not a few telegrams, urging the governor to have Gore manage the western end of the campaign.

Prior to Gore's coming, 100 Brooklyn democrats were expected to visit the governor in a body. Herman Ridder, whose selection as treasurer of the national committee is expected to be announced in New York shortly, also wants to see Governor Wilson and may visit him here late this afternoon or Monday.

The governor will spend but a few hours here today before returning to his retreat for a stay over Sunday.

Governor Wilson remained at Sea Girt only a few minutes today, owing to cancellation of the visit of the Brooklyn democratic club, which wired for another date. He cancelled his tentative engagement with Senator Gore and immediately returned to the house of friends, where he has been all week and where he will remain over Sunday.

FORMER LA CROSSE MAN DIES IN WEST

Word has been received in the city that Ed Robinson, formerly of La Crosse, died in Pueblo, Col., on Wednesday. Mr. Robinson lived in this city ten years ago and he is well known here. FIFTIETH NATIONAL GERMAN SANGERSFEST IS ON AT NUREMBURG WITH 40,000 ATTENDING

NUREMBURG, July 27.—Forty thousand music lovers from all over the world gathered today for the fiftieth German national sangersfest which opens here this evening. Such was the rush of visitors that even schools and public halls have been turned into dormitories.

For the concert a special hall, with 8,500 square yards of floor space has been erected. Delegates are in attendance from 5,675 sangersbands, representing a membership of \$27,000. Thirty-five bands have been engaged for tomorrow's parade. The city spent \$100,000 on decorations.

The chorus of 16,000 singers, to be heard Monday, is the largest ever brought together. Six hundred and fifty German-Americans are included.

CONTRACT PROBLEM IS SOLVED TODAY

The Thill-Manning-Whalen company today solved the problem of letting the contract for the South side sewers, for the members of the board of public works. Olaf Swennes and the Thill-Manning-Whalen company had both entered bids for the work. The Swennes bid was the lowest but was technically illegal owing to an oversight on bidding on catch basins. The board found themselves up against the proposition of letting an illegal contract no matter which company it awarded to. In order to settle the matter in a satisfactory manner, the Thill-Manning-Whale company today filed a voluntary withdrawal of their bid. The contract was let to Swennes for \$7,160.

J. Ham Tells Jury Rights of Beauty

CHICAGO, July 27.—Here's J. Hamilton Lewis' theory about women of beauty. He voiced it when he demanded \$500 a month alimony for Mrs. Florence E. Kirkpatrick, who was seeking separate maintenance from Walter E. Kirkpatrick, former traction magnate, and now a railroad promoter.

"If a man weds an invalid sweetheart," said J. Ham, "it is expected he will nurse her through life. If he marries a frail girl it is presumed that he will concede her every comfort in her weakness. But if he marries a beautiful woman; if the woman yields her unusual charms to monopolization by one man, we demand that he clothe and house and establish her that her gifts from heaven shall not languish unappreciated."

The naked jewel must have its setting. The masterpiece must have its frame. The world must have its beautiful women with their gowns and jewels, their expensive hats and tidy shoes and soft attentions."

BLAMES SERVANTS FOR WIFE'S FLIGHT

San Francisco Banker Alleges Spouse Left Him at Instance of Family Servitors

NEW YORK, July 27.—When the family servants of Nicholas J. McNamara, retired San Francisco banker, now living at San Mateo, Cal., today was arraigned in the West Side court charged with stealing an automobile, the proceeding was merely a make-shift to hold them until McNamara can arrange to confront them with charges of exerting undue influence over his wife, Mrs. Margaret I. McNamara, who, with her children, was detained in New York on her way to Carlsbad, Germany.

Mrs. McNamara indignantly demanded to know why she was left helpless without servants when she was about to take ship for Europe and was shown a telegram from the chief of police of San Francisco to the police of New York, demanding that the housekeeper, chauffeur, and valet be held for stealing a touring car and stating that they were responsible for Mrs. McNamara's flight from home.

FRED NELSON HUSE KILLED BY ABSCESS

Fred Nelson Huse, aged 67, 1401 Mississippi street, died of an abscess of the neck at 8:30 o'clock this morning after an illness of two months.

Mr. Huse was born in Norway on April 25, 1845. He came to America in 1872 and he came directly to La Crosse, where he has resided ever since that time. For thirty years he worked for the Colman Lumber company as a saw filer, and after that he was employed at the La Crosse Coopers company until two months ago, when he was taken sick.

He is survived by his widow. The funeral will be held Tuesday afternoon at 2 o'clock from the residence and at 2:30 o'clock from the Norwegian Lutheran church, with Rev. Magelsen officiating at the services. Burial will be made in Oak Grove cemetery.

TO DENVER IN 1915

ST. PAUL, Minn., July 27.—Denver was chosen as the next meeting place for the saengerfest of the northwest saengerbund.

The saengerfest will be held in 1915 instead of 1914 so as not to conflict with the big German turn-fest.

The saengerfest closed here today with a gigantic picnic on Harris Island. More than 15,000 Germans marched to the picnic grounds, where they were met by 20,000 more.

The following officers were elected at the annual meeting: Theodore Behrens, Chicago, president; Peter Laux, Omaha, vice president; George H. J. Kieck, Milwaukee; secretary; E. O. Kney, treasurer; John Wunder, Librarian, and Theodore Kelbe, director.

MRS. LEE SURPRISED

Mrs. H. A. Lee, 504 South Fifth, was pleasantly surprised Friday afternoon by the members of the Pastime club in honor of her birthday. Five Hundred was played and prizes were won by Mesdames Walters, Denison, Reichelt and Rubert, while the consolation was drawn by Mrs. Denny. Mrs. Lee was presented with a number of pieces of Haviland China. Those present were Mesdames Walters, Thatro, Rubert, Reichelt, Keegan, Denny, Knothe, Harris, Denison, Gudenschwager and Lee.

DOCK STRIKE OVER

LONDON, July 27.—The dockworkers' strike was suddenly called off today. No explanation is yet forthcoming. It had lasted for more than ten weeks and reduced the strikers and their families to such destitution that some have literally starved to death.

The strike committee's manifesto recommended the resumption of work immediately, following which the employers have assured the men that they will fully consider their grievances.

GEO. VAN AUKEN PLAYS IN FINALS

Local Boy Competes for Secretary's Cup Today at the State Golf Tourney

BLUE MOUND COUNTRY CLUB, MILWAUKEE, Wis., July 27.—Officers of the State Golf association were elected as follows: President, J. M. Hixon, La Crosse; vice president, Howard Plimpton, Milwaukee; secretary, Walter Kavanaugh, Kenosha. William L. Yule, Kenosha, president for the past several years, declined re-election today. The Kenosha Country club today secured the 1913 tournament.

Schedule for the finals to be played today:

Championship Flight
Ned Allis, Milwaukee C. C., vs. Gordon Yule, Kenosha, C. C.

President's Cup
A. E. Genter, Sheboygan, vs. Z. G. Simmons, Kenosha C. C.

Directors' Cup
A. B. Morris, Madison, vs. W. A. Bell, Kenosha.

Vice President's Cup
Prime M. Davis, Blue Mound, vs. Hamilton Vose, Milwaukee C. C.

Secretary's Cup
E. B. Veech, Sheboygan, vs. George Van Auker, La Crosse.

Treasurer's Cup
W. L. Yule, Kenosha C. C., vs. F. M. Graham, Eau Claire.

MILWAUKEE, Wis., July 27.—Ned Allis, Milwaukee C. C. vs. Gordon Yule, Kenosha C. C.

That is the way the card reads for the final match of the championship flight for the fabled crown of Wisconsin which will be competed for in the windup of the annual golf tourney at the Blue Mound Country club this afternoon.

In other words it is Kenosha nosh against the entire state, a splendid tribute to the down state's skill in the play throughout the week and they have swept all before them in the battle of skill and clubs, but it appears as though they will fall short in the supreme test this afternoon.

Three Kenosha artists reached the semi-final matches which were played on Friday and those who survived in the elimination play were Allis and Yule as before announced. Allis, the present title holder and representative of the Milwaukee Country club, put "Chick" Allen, Kenosha, and last year's runner up, after a pretty battle which took thirty holes, the final count being 5 up and 4 to play.

George L. Van Auker, son of C. S. Van Auker of La Crosse, is the only man from that city to qualify for the finals today and he is scheduled to play E. B. Veech of Sheboygan for the Secretary's cup. He is perhaps the youngest man in the tournament, being sixteen years old, and what makes his performance all the more remarkable is that he has never been in any of the tournaments here because he was not old enough to take part, the required age limit here being eighteen. In the semi-finals for the Secretary's cup yesterday he defeated Emil Niemeyer of La Crosse 2 up and 1 to play.

Alfred James of La Crosse made a score of 175 in the tourney for the Age Limit cup. George A. Yule of Kenosha winning the cup with a score of 160.

GOODLAND WON'T OPPOSE MCGOVERN

RACINE, Wis., July 27.—(Special.)—Walter S. Goodland, mayor of Racine, will not become candidate for governor against Francis E. McGovern, nor will offer any opposition to the Milwaukee man unless he learns that some other progressive republican becomes a candidate for the governor's chair.

When shown the story published in several of the state papers to the effect that he had been conducting a quiet campaign to ascertain just "how the executive stacks up" in Wisconsin," Mr. Goodland declined to make a statement.

MAJESTIC BUILDING

Divorce Withheld; Has No Residence

Declaring that his wife had deserted him to enter a house of ill-fame in Davenport, Iowa, Curtis Hodge today, a Milwaukee railroad man, made motion for a divorce. Clara Hodge, his wife, declared that she was forced to leave him because he would not support her and that he had attacked her in Milwaukee and threatened to kill her. She says that the intervention of two other women alone saved her life.

Judge E. C. Higbee declared that his place of residence had not been firmly established and decided to hold the case over until September. Not having been constantly in one county, it is possible that he may not be able to establish a place of residence. He formerly ran out of North La Crosse, but has been transferred several times.

A. P. PARSONS IS NEW CANDIDATE

Rumored that Doherty Is "Man in Ambush" Back of Aspirant for District Attorney

Republican politicians of La Crosse county were disturbed by the announcement today that Arthur P. Parsons, for fifteen years a leading lawyer in this city, has become a candidate for district attorney and is already circulating his nomination papers. His entry makes the race a three cornered fight, A. E. Bleekman and O. M. Schlachab having announced their candidacy for the district attorneyship several weeks ago.

According to the story that is going the rounds today, John Doherty, democratic candidate for attorney general, is "the man in ambush" who is responsible for the Parsons candidacy. Because of Mr. Doherty's alleged activity in promoting Mr. Parsons' candidacy, it is maintained in some quarters today that Parsons' decision to run is the result of a democratic plot. It is said that Mr. Doherty made the initial proposition to his brother attorney in the secrecy of his office in the McMillan building yesterday and as a result of this conference regarding which both parties today are maintaining an attitude of strict silence, Mr. Parsons decided to enter the fight.

It is rumored, however, that Mr. Doherty pointed out an alluring chance to grab the nomination because of the contest that is being waged between the other two republican aspirants for the office. It is hinted furthermore that Mr. Parsons was encouraged to believe that his campaign would not result in any material depletion of his finances. The last argument is said to have crystallized Mr. Parsons' determination and the announcement of his candidacy today was the result.

MISS HOGAN ENTERTAINED

Miss Helma Hogan entertained a number of young ladies at the home of Mrs. P. Limoseth Friday evening in honor of her birthday.

The house was beautifully decorated for the occasion, particularly the dining room, the color scheme in this room being red. Red streamers were artistically suspended from the chandeliers to the table, on which was a large birthday cake adorned with tiny red candles.

The evening was delightfully spent in music. Dainty refreshments being served.

Those present were Misses Ruth Anderson, Helen Zenker, Mabel Tanberg, Ella Gannon, Elsie Witt, Louise Buell, Jessie and Olga Limoseth and Louise Dahl from Galesville.

The hostess was the recipient of many beautiful gifts.

The guests departed at a late hour wishing Miss Hogan many more happy birthdays.

COUNCIL TO HOLD SPECIAL MEETING

A special meeting of the common council has been called for Tuesday evening to hear the report of the special water committee on the plans and specifications for the pipe lines for the new water plant drawn by City Engineer George Bradish. The committee will recommend that the plans be adopted as drawn and that immediate action be taken for the awarding of the contracts for the installation of the new lines. These pipe lines, work on which will probably begin next month, will constitute the distributing system from the wells, pumping station and reservoir to the mains of the city.

The matter of insuring the city against losses to which the city is liable under the workmen's compensation or employers' liability act passed by the last legislature will come up at the next regular meeting of the council August 9.

DISCOVER NEW PLAN TO ELOPE

North Siders, 18, Flee to Winona in Fast Motor-boat and Are Married

PARENTS OBJECT IN VAIN

Case of "Puppy Love" Ends in Wedding and Forgiveness Is Finally Granted

With the river handy as it is, the only wonder is that the plan was never thought of before. But it remained for Charles Blanchard, owner of the fastest motorboat on the north side, and Miss Pearl Thompson, Merrill, Wis., to discover absolutely the latest thing in elopements.

Charles, who is eighteen, lives with his parents, Mr. and Mrs. R. L. Blanchard, at 612 Rose street. His father is an engineer on the Burlington road. Pearl also lives with her parents at Merrill, when she is at home. Pearl is eighteen, too.

Pearl was visiting friends on the north side. She has been in La Crosse but a few weeks. Shortly after her arrival she met Charles. Dan Cupid was present at the introduction and scored another to his records of bullseyes. The friendship of the two young people, both of whom are socially prominent on the north side, occasioned no comment, although it was observed that they were together a great deal.

The parents of Charles took no notice of the affair, thinking it to be just a boy and girl flirtation. They refused to regard it seriously, and their attitude was imitated by the friends with whom the young lady was staying. They refused to believe that either was old enough to entertain any serious thoughts of marriage.

Just when the elopement was decided upon is not known. At any rate, both knew it was hopeless to try to obtain the consent of their parents. And they were entirely too much in love to submit to parental regulation. So they decided there was but one course left.

Charles had his motorboat, and Monday morning they started early from the dock in Black river. Once in the boat they feared no pursuit, for with few exceptions there is not a craft on the river that can sweep pace with Blanchards.

Their wedding journey was made to Winona in a few hours, and their honeymoon trip back to La Crosse started a few hours later.

There were probably justifiable misgivings in their hearts as they went from the dock in the evening toward the home of the bridegroom. It is reported there was a scene when the elopers returned to the parental roof with the news that they were married. But they have been forgiven now, and the honeymooners are living at the Blanchard home.

COURT DISMISSES CONTEMPT CHARGE

Dr. Allen Now a Prisoner; Court Decides it Is Useless to Impose Another Sentence

Dr. Ralph Allen, notorious through his many appearances in the courts of La Crosse county on charges dealing with the gentler sex, was again brought in touch with court procedure this morning, this time for contempt of court.

Action for divorce was recently brought by Mrs. Ella Allen, wife of Dr. Allen. The action was held over for the September term of the circuit court and Dr. Allen was ordered to pay \$10 a week for the support of his wife and child.

Previous to the divorce action, he turned all of his money over to Attorney W. F. Wolfe, he being held in the county jail for trial at the September term of court on other charges. The charge of contempt was brought by Attorney Frank Whitrow was on the grounds of non-payment of the sum ordered.

As the penalty of contempt is a jail sentence and Dr. Allen is already confined to the county jail, no action could be taken to make him comply with the court order. The motion was dismissed and Attorney Wolfe enjoined from making any disposal of the money until action has been taken relative to the divorce action.

TRIBUNE NEWSBOYS ARE ENTERTAINED

The Tribune's North side newsboys were entertained last evening by Miss Olga Caspersen at her home at 1507 Loomis street, and all had a fine time. One of the main events of the evening was a baseball game between the Loomis street girls' team and the newsboys, the latter nine meeting with defeat by the girls, who won by a score of 14 to 7. Refreshments were served and all the guests spent a pleasant evening.

where it is expected to spend Sunday.

The umpires paid high compliments to the regiments for the excellent way in which the march was carried out. On the previous day severe criticism had been made of the method of keeping the commands closed in on the march. Yesterday following a new procedure the brigade covered itself with glory in getting into its new camp.

Camp in Ten Minutes

Ten minutes after the order for pitching pup tents was given the tents were in place. Fifteen minutes later all the officers tents were up. Thirty minutes later every wagon had been unloaded. The record was one to be proud of and the officers and non-commissioned officers were highly elated at the showing made.

It is understood that all active operations extend from 10 o'clock midnight until noon the following day. The conditions exist but no movements are made by the main armies.

Question in regard to the campaign are constantly arising and a bunch of experience is being gained which would prove invaluable in a real war.

Sixteen mules were needed to pull some wagons out of the mire when the vehicles were stuck in muddy roads.

No Treats

Company M officers and "non-coms" are conducting an endurance test in the march. If any of the above are compelled to partake of the services of the ambulance on the road he has to treat the crowd. So far there have been no treats.

Quartermaster Sergeant Claude Thompson of Company M, majestically rode into camp yesterday morning driving a four horse team for the first time in twenty years.

The rattle of infantry fire and the banging of field artillery near here at noon today prefigured what was expected to be a big battle between the Reds and Blues, the regular army troops and the state militia companies engaged in mimic warfare on the Wisconsin military reservation.

The Reds are retreating slowly before the advancing Blues, and frequent skirmishes between the former's rear and the "Blue" advance guard marked the early fighting today. That a stand will be made against the advancing hordes was expected.

200 "Killed"

Hostilities yesterday were the first real attack of the war game. It resulted in victory for the Blue forces after 10,000 shots were fired and 200 men technically were killed.

Adjutant General C. R. Boardman in command of Wisconsin national guard taking part in the army maneuvers on the Wisconsin military reservation today unqualifiedly denied charges that soldiers took part in a drunken orgy at Camp Douglas. Col. Holway, La Crosse, and staff substantiated Gen. Boardman's statement which was as follows:

"WYEVILLE, Wis., July 27.—Absolutely no truth to reports of drunken orgies by troops. Conduct throughout excellent; army officers on duty here will verify this. (Signed)

"BOARDMAN, Adjt.-General." Tomah is half way between Camp Douglas and McCoy and as the two forces left their respective camps almost simultaneously it is expected the big sham battle will be fought on the very outskirts of Tomah.

In anticipation of this, the government has rented several large farms just north of Tomah for a period of five days, to be used as camping sites and places of pasture and feed for the animals. The government property at the Tomah Indian schools, which joins these farms and pastures on the south, also will be used for camping purposes.

Survey Swamp

North of Tomah there is a large swamp through which there are several roads and passes. For several weeks past officers from both sides have visited this swamp, as well as other parts of the location, and have surveyed them, making careful and detailed maps of the situation for use in the campaign.

Umpires, who have been chosen from the best tacticians of the United States army, will watch the movements of both armies from day to day and will decide to which side belongs the victory.

The campaign to a considerable extent will be one of generalship—a test of the officers on both sides—and upon the strategic points or positions gained each day by one side or the other the umpires will make their markings.

POLICE SERGEANT CAN'T BE FOUND
KENOSHA, Wis., July 27.—Alleged that he has been lured away by a wanderlust, which twice in the past has led him into strange fields of lawless memory, members of the police department have inaugurated a wide search for Martin Christenson, 41 years old, and desk sergeant of the department. Christenson had been on the night desk of the Kenosha department for more than seven years. He has been missing since last Thursday.

MONKEY TARGETS ARE PROHIBITED
MILWAUKEE, July 27.—No more will the sad faced little monkeys at a local amusement park squirm and wiggle on the battle front of enthusiastic patrons with pitching arms and no longer will the active simians cavort and dodge to the tune of a volley of baseballs. For the cruel exhibition has been stopped by the Wisconsin Humane society and the proprietors enjoined from showing the act in any other city of the state. Zachariah Clayton of the Humane society was informed by postal card of the nature of the exhibition on Tuesday and telephoned the management asking them to stop it. They refused until some official action was taken and Friday afternoon Supt. Phillips made a trip to the park and enforced the law of the state.

WASECA GOES DRY BY COURT DECISION
ST. PAUL, July 27.—The village of Waseca will be "dry" as the result of an opinion covering an odd situation there, handed down by the state Supreme court yesterday. On April 2, last, an election was held, in which 698 ballots were cast. On the question of license, there were 338 votes in favor of it and 349 against it, a total of 687. Eleven voters did not vote on the liquor question. A majority of the 698 ballots cast would be 350, or one more than one-half. As there were only 349 votes cast against license, the "wets" won, according to the findings of the city council.

E. R. Krassin, a taxpayer of Waseca, appealed from the decision, and the district court held that there were 351 votes against saloons. The two additional ballots counted as against, furnished the cause of appeal.

One of the ballots had written after the words—"In favor of license," the word "No." The other ballot had written after "Against license," the word "No." The Supreme court holds that both of these were properly counted as against license.

BOY FOUND DEAD; NO ARREST MADE
MILWAUKEE, Wis., July 27.—No arrests will be made by Sheriff Arnold in the case of John Kazloskie, 15 years old, who was found dead from a knife wound on the Milwaukee road tracks, a mile north of the village of North Milwaukee, on Thursday night. The story told by Elmer Goetzke, 15 years old, to the effect that the wound was the result of a stone thrown by Arthur Riemer, 30 years old, a farmer, which struck the hilt of the knife Kazloskie carried and drove it into his left breast, is doubted by the sheriff.

Goetzke admits that he and Kazloskie made remarks to Lillian and Laura Harpach, two young daughters of a neighboring farmer, and that this was the reason why Riemer pursued them. He denies however, seeing his companion fall on the potato knife he was carrying, which is the theory of the sheriff's officers, and says that when he last saw Kazloskie he was being pursued by Riemer.

Divided Nest.
A North Westmorland (England) farmer recently came across a very unusual sight. In the course of his rounds through his fields he found a nest with 25 eggs in it. The large number was not the only marvel, for on examining the eggs, he found that 15 of them belonged to a pheasant, and the remaining ten to a partridge. The pheasant, as the stronger bird, was the probable intruder.

GIRL TRAVELING IN MAN'S ATTIRE
ASHLAND, Wis., July 27.—Dressed as a man, in company with two young men, one of whom claimed to be her brother, Miss Gladys Haley was picked up by the police in company with her two companions.

They claimed they came from Arbor Vitae, Wis., where the men were working in a sawmill. They did not like the job, however, and thought they would see some of the country, and Miss Haley, who is 20 and pretty, went along.

When found the trio had been without shelter during the night and all were hungry. They were given a meal at the jail, and then a patrolman escorted them to the railroad tracks. There they "jumped" a freight and continued their journey.

Stabbed by Umbrella.
Perhaps the strangest weapon ever used for killing was an umbrella. POLITICIANS MEET ON PICKET LINE
MADISON, Wis., July 27.—Col. John J. Hannan, private secretary to Senator La Follette, and Charles K. Lush, provisional national committeeman from Wisconsin for the Roosevelt third party, met yesterday for the first time since Mr. Lush has become actively identified with the bull moose movement. The meeting was in La Follette's magazine office.

Mr. Lush was talking with the business manager of the magazine when in walked Col. Hannan, in his usual hurried style.

Up jumped Lush and rushing toward the colonel with outstretched hand he said:

"We meet on the picket line."
Hannan, tall and heavy set, looked down at Lush, small and slender and replied:

"The baby bull moose."
"Glad to meet you, Charlie."
"Glad to meet you, John."

Sure heating brings sure tenant

AMERICAN & IDEAL RADIATORS & BOILERS

for Hot Water or Low-Pressure Steam are put in thousands of homes each year to replace stoves and hot-air furnaces which have been found wasteful in fuel while heating one side of the house in windy weather, spouting ashes, soot, and coal-gases into the rooms and soon destroying carpets and furnishings.

Our radiant methods of heating are positive and liberal. Windward rooms are evenly warmed and freed from dust and dirt. They attract and hold best tenants. Estimates cheerfully furnished.

Mr. Roomhunter—"Ah! That big radiator settles it. I know this room will be warm all winter, so we'll take it, Mrs. Slimdick."

Mrs. Slimdick (ten minutes later)—"Caught em again! This paper-mache radiator never fails to rent the worst room in the house."

IT IS EASIER TO SAVE THE HAIR YOU HAVE

Than to Grow New

The tendency to put off until tomorrow what we should do today accounts for most of the bald heads we see in the front row.

Newbro's Herpicide stops falling hair and prevents baldness. The dandruff germ is destroyed by its use and a condition of health maintained in the hair and scalp.

Nearly everyone has hair troubles of some description which Herpicide will always correct. Don't wait until it is too late.

It is conceded to be the standard hair remedy and is recommended and applied by all the best hair dressers and barbers.

Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Send 10c in postage for sample and book about the hair to The Herpicide company, Dept. R., Detroit, Mich. Hoeschler Bros., Special Agents.

Domestic Hints

(From The Scotch-American)

When peeling onions begin at the root and peel upwards, and the onions will scarcely affect the eyes at all.

A pinch of borax stirred into fresh milk will keep it for some time, and also prevent the cream going sour.

To keep silver or metal teapots sweet when not in use place two or three lumps of sugar in them; they will keep sweet any length of time.

The wedding ring is worn on the fourth finger of the left hand for the reason that it was anciently believed that a small artery ran from the finger to the heart.

The greenness caused by damp on bricks, tiles or steps may be easily removed by well scrubbing with water in which a small quantity of chloride of lime has been dissolved.

If windows are cleaned with vinegar and water they will be brighter and last clean longer than if cleaned with water alone. Polish in the usual way with a soft linen cloth or leather.

A few drops of olive oil sprinkled over an old nail-brush has an excellent effect on a black straw hat which has lost its color. The brush should be worked well into the interstices of the plait until the straw is once more shining.

For an ordinary sore throat, with loss of voice or huskiness, dip a folded handkerchief in cold water. Encircle the neck with the wet handkerchief, and cover it with several folds of old flannel. One night's application is usually sufficient to relieve slight cases.

Perhaps the best method to whiten hands is to bathe them every night in warm milk and rub them over with half a lemon in the morning. This latter is one of the most effective bleaches known, and should be kept on the washstand of every girl who wishes to have her hands admired.

ONALASKA, WIS.

The funeral of Charles Hobbs of Iron River, Wis., who passed away at his home Sunday, was held here Wednesday morning. The remains were interred beside those of his father. Those who accompanied the remains to this city were the wife and son Adelbert, Mr. and Mrs. Frank Graves of Viroqua, Mr. and Mrs. Horace Moore of Duluth, Mr. Even Bryan of Iroquois, S. D., and Mrs. Jones of Bangor. Brief services were conducted by the Odd Fellows of La Crosse, of which order the deceased was a member. He was also a member of the M. W. of A. Deceased was 52 years of age and leaves a widow and seven children, besides a mother, one sister, Mrs. Horace Moore, and a brother, Adelbert Hobbs. The relatives who attended the funeral were guests of Mr. and Mrs. T. G. Aiken, leaving for their homes Thursday morning.

Miss Mabel Walker, who was operated upon Monday morning for appendicitis, is getting along nicely.

Miss Eva Brown returned here Tuesday evening from the south.

The Wheat and the Tares. Matt. xiii:24-30, 36-43.

Golden Text—Gather ye together first the tares and bind them in bundles to burn them, but gather the wheat into my barn. Matt. xiii:30.

(1.) Verses 25-25—What does the kingdom of heaven here stand for?

(2.) Would you say, and why, that Jesus here meant that the church as a visible society on earth contains both good and bad people?

(3.) What is the difference in the results as between good seed and bad seed as suggested in this parable?

(4.) What in this parable stands for wheat and what for tares?

(5.) What resemblance is there between the wheat and the tares?

(6.) If Christ stands for the man who sowed "good seed," whom does the enemy stand for who sowed the tares?

(7.) What chance would Satan have to sow tares if people kept wide awake?

(8.) Verse 26—Can "tares," or sin, ever be regarded as another form of good? Give your reasons.

(9.) Is it possible, or not, and why, for sin to produce good results?

(10.) Verse 27—Who are those who generally complain to God because of sin in the church?

(11.)—

(12.) There used to be frequent trials of members in evangelical churches for immorality. When did you last learn of such a trial and how is it that they are now so infrequent?

(13.) Verse 30—What will be the difference in that great day between the doom of a sinner in the church and a sinner in the world?

(14.) What will be the fate of the finally impenitent sinner?

(15.) What will be the final condition of all true Christians?

(16.) Verses 36-37—Who is the sower of the good seed?

(17.)—In what sense is Christ the only sower of good seed?

(18.) Verses 38-39—What results do wicked people accomplish in the world?

(19.) When and what will the harvest be?

(20.) Verses 40-43—Does Jesus mean that the literal tares are burned in the fire or that sinners will be? Give your reason.

Lesson for Sunday, Aug. 4, 1912. The Worth of the Kingdom. Matt. xiii:44-53.

Many a love letter has come home to root.

Most men's ambitions are too big for them to handle.

Wit of Sages, Folly of Clown, Stolen Gems from Humor's Crown.

He Knew The Ritual

Thomas W. Lawson, condemning crooked business, said to a Boston reporter:

"A Broadway office boy was caught in a nasty lie by the head bookkeeper the other day.

"My son," said the bookkeeper, solemnly, 'do you know what becomes of boys who deceive and prevaricate?'

"The youngster looked at the shabby old bookkeeper, sneered and answered:

"Of course, I do. The boss lifts 'em right out of the starvation, pen-pushin' class, makes 'em department heads, and takes 'em into the firm before they're forty."

Pertinent Inquiry

An Irishman had a habit of walking in a graveyard about twelve o'clock at night. Some boys of the neighborhood planned to so dig and o'clock at night. Some boys of the neighborhood planned to so dig and o'clock at night. Some boys of the neighborhood planned to so dig and o'clock at night.

"What are you doing in my grave?"

"What are you doin' out of it?" Mike replied.

The Origin of "Bull Moose"

Many have asked since the republican convention in Chicago, the origin of the term "Bull Moose" as applied to Col. Roosevelt and the third party movement.

Believing that the elephant and the democratic donkey should have stable companions, writers and cartoonists have hooked the bull moose to the Roosevelt supply wagon, but where did they get the idea?

The answer is taken from newspaper files of last spring when some one asked Col. Roosevelt if he felt prepared to begin the arduous work incidental to the campaign for delegates to the national convention. The great lion hunter replied:

"I am feeling as fit as a bull moose."

No sooner had the words been uttered than newspaper correspondents sent him sizzling over the wires and the colonel has since been known as the bull moose.

Speaking of the bull moose, what is the plural of moose? Editor Harvey in Harper's Weekly calls it mooses. The Standard says it's moose and Webster's counsel is divided. Luckily, says a Cleveland paper, there is only one bull moose of any consequence.—Ex.

Anglicans Organize For World Union

Four representatives of the Episcopal church in the United States, Bishop Anderson of Chicago, Bishop Vincent of Southern Ohio, Bishop Hall of Vermont and the Rev. Dr. William T. Manning of New York, have just returned from a visit to England, Scotland and Ireland as a deputation to urge Anglican communions there to work for a World Conference on faith and order. They report finding hearty interest abroad, and action taken to further the conference. It was for the expense of this conference that J. Pierpont Morgan gave \$10,000.

Under One Emperor

American missionary leaders are pointing to the tremendous charges in religious conditions that have taken place during the life time, even during the reign of Emperor Mutsuhito, the mikado of Japan. They say that in these changes the emperor himself exhibited as true greatness as in other lines. While he did not himself become Christian, he recognized it without breaking with the old religion of his empire. Missionary societies in this country and in England are preparing to issue literature showing the part played by Mutsuhito in religious changes of half a century.

During the youth of Mutsuhito notice boards were standing in the highways of his country declaring Christianity a forbidden religion. Today these same boards are in Tokyo, even in conservative Kyoto, museums as things of historic interest. During the same emperor's boyhood religious liberty was a term unknown in Japanese legal terms. Today it is a part of Japan's constitution.

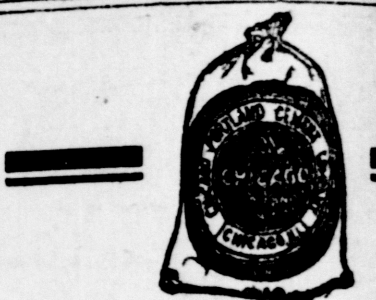

Pope Leo XIII

And Anglican Orders

The Rev. David Fleming, late minister general of the Order of Friars Minor, an Irishman by birth and now consultant to the Sacred Congregation of the Holy Office at Rome, is to issue at the hands of a London publisher Pope Leo XIII's side of the famous controversy as to whether the orders of the church of England, and with it those of the Episcopal church in America, are valid as instituted by Jesus Christ. The book will be ready in October. While edited by Father Fleming, and containing much of his work, it is claimed to be the record of the Pope's part in the great controversy; a controversy that has lasted for three hundred years and more.

Churches On Wheels

Baptists started the plan of fitting of railroad cars as chapels for public worship, and the conduct of Sunday schools, and asking the railroads to haul them from town to town, remaining a short time in each. Later the plan has been followed by others, including the Roman Catholics, who under their church extension society, have just dedicated a second car at Dayton, intended for services in towns of the southwest and Rocky Mountain region. In England the automobile has been utilized for services in rural districts.

In our experience covering a good many years we find the "Chicago Double A" brand of Portland Cement, is giving the greatest satisfaction to the greatest number of our patrons.

where the Catholic church is weak, but so far as can be learned, the automobile has not yet been brought into use in America as yet.

Baptists have six cars in service, Catholics two. Both find the railroads willing to haul these cars from settlement to settlement—they never remain in towns of any size—with out charges in any form, their ground being that such chapels help the people. Baptists have found the cars effective in most ways, although there have been severe criticisms of their work, in that they easily set up churches that as easily go to pieces after the first enthusiasm dies out. In both protestant and Catholic chapels, and even in the automobiles in England, wonderful likenesses to real churches is attained. Usually sleeping accommodations for workers are provided, and in most cases literature is distributed.

Baptists Pushing Education of Slaves

Baptists report finding large numbers of Slaves coming to them from the Catholic church, especially in New England, and in the northwest. At a meeting of leading Baptists, just held in Wisconsin, the Slavs claims were considered and the recommendation made that a training school for the Baptist ministry, all Slavs and all recent Baptists converts, are ready to enter the school. If funds can be secured a Baptist Slavic secretary is to be named to head the work in the whole country.

Chicago Grain Letter
CHICAGO, July 27.—There was a narrow nervous market today with the range within the limits of about one cent and as much up as down from yesterday's closing wheat prices. Traders seemed disposed to wait until next week before taking chances. Sales were 100,000 bushels.

The corn market was heavy much of the day, closing on a fair rally. The weakness was on generally favorable advices, except reports of some unfavorable reports from Oklahoma. Sales were 125,000 bushels.

A severe decline in July oats was registered when it went to 4 1/2c under yesterday's close. Sales in the oats pit were 100,000 bushels.

Provisions were strong and higher, on good commission buying of ribs, largely October, the market eased off some later.

WATCHING THE SCOREBOARD

There may be a fight for the national pennant yet. Those who saw the snap and class of the Cubs yesterday believe McGraw is yet in danger. The defeat of the Giants was a hard blow to New York fans, for it was a fierce battle all the way. A close decision at home, which resulted in the benching of Doyle and Meyers, nearly gave the crowd heart failure.

If—if the Cubs should win eleven straight, and the Giants should lose the same number in succession, the percentage column would show a tie for the rag.

The Phillies got eight hits from O'Toole in seven innings, and smashed out a victory.

The back-sliding Reds received another shove when the Brooklyn Superbas skinned them 9 to 4, by bunching hits and taking advantage of openings.

There were only three major league games yesterday, but today there is a full schedule.

ST. PAUL ELKS ARRIVE TOMORROW

The St. Paul Elks' baseball team arrives in the city tomorrow noon for the game with the La Crosse Elks at League park tomorrow afternoon. About thirty-five rooters will come with the team and the visitors hope to win and so gain revenge for the victory of the locals at St. Paul. La Crosse is also determined to win.

The teams will line up as follows: La Crosse—Catcher, Burns; pitcher, Maxwell; first base, Weihaup; second base, McGovern; captain; shortstop, Padesky; third base, Law; outfielders, Merrill, Newburg and Rose; utility, Faraser and Grimes.

St. Paul—Catcher, Snow; pitcher, Carling; second base and pitcher, Titus; shortstop, Neiler; third base, Picha; center field, left field, Rogers; center field, Fitzpatrick; right field, Merritt.

FIRST OF GIANT SERIES TO CUBS

Richie and Reulbach Win Game Against Mathewson Although Out-pitched

PHILLIES HAMMER PIRATES

O'Toole Has Erratic Day on Mound and Buccaneers Get Licked by Score of 4 to 1

NATIONAL LEAGUE
Chicago 4; New York 3
NEW YORK, July 27.—The Cubs took the first game of the series from the Giants yesterday by a score of 4 to 3. Mathewson, the only Giant pitcher able to beat the Cubs when last time the two teams met, pitched better ball for the losers than Richie and Reulbach for the visitors, allowing only seven scattered hits. Errors behind him, however, counterbalanced his effective mound work. Score: R H E Chicago . . . 000010012—4 7 0 New York . . . 101000001—3 9 2 Batteries: Richie, Reulbach and Archer; Mathewson, Meyers and Wilson.

Philadelphia 4; Pittsburgh 1
PHILADELPHIA, July 27.—The Phillies beat Pittsburgh in the first game of the series yesterday, 4 to 1. O'Toole was erratic, the sensational holding of Wagner keeping the local score down. Score: R H E Pittsburgh . . . 000000001—1 6 0 Philadelphia . . . 10100101X—4 10 1 Batteries: O'Toole, Adams, Gibson and Simon; Moore and Killifer.

Brooklyn 9; Cincinnati 4
BROOKLYN, July 27.—The Brooklyn Dodgers celebrated their home coming by beating the Cincinnati Reds 9 to 0 yesterday. The home guard hammered the offerings of three Red pitchers for a total of eleven hits, which with a generous number of passes enabled them to win easily. Score: R H E Cincinnati . . . 000400000—4 7 1 Brooklyn . . . 02250000X—9 11 1 Batteries: Davis, Keefe, Benton and Clark; Curtis, Ragon and Miller.

COLUMBUS, July 27.—Battling bees in the fifth and sixth innings, in which six runs were scored, enabled the Mud Hens to trim Columbus, 7 to 3. Score: R H E Columbus . . . 001024000—7 12 2 Milwaukee . . . 000000110—3 10 1 Batteries: Falkenberg and Land; McQuillen, Bruck and Rapp.

Louisville 2; Indianapolis 1
INDIANAPOLIS, July 27.—Louisville bunched their hits in the sixth and seventh and defeated Indianapolis, 2 to 1. Lauder milk held the Indians to four hits. Score: R H E Louisville . . . 000000110—2 9 2 Indianapolis . . . 001000000—1 4 0 Batteries: Lauder milk and Schlei; Link and Clarke.

SUMMITS DUE TO MEET LANSING CLUB

The Summits baseball team expects a hard game tomorrow afternoon when they meet the fast Lansing, Ia., club at Lansing. With Bell on the slab for the locals and Oeltjender behind the bat the Summits think that they will be able to down the Iowa team for Bell has been pitching wonderful ball all season. The Lansing team is a strong aggregation and they have been strengthened by the addition of several Waukon players.

WASHINGTON FANS SEE CHAMPIONSHIP AHEAD

WASHINGTON, D. C.—An epidemic new to Washington has swept over the city. They call it "penantitis," and almost everyone in the capital seems to be affected. Never before in the history of the national game have the people of this town been so worked up as they are just now over the very remarkable and surprising showing the Senators have made during the present season. When the team astonished the baseball world by winning seventeen straight games the Washington fans about lost their heads. Then came a slump and much depression. Now the Senators have had another long streak of good luck, and the hopes of local fandom are again soaring.

KONEY IN DEAL WITH GINGY REDS

Rumors of Trade in Which Former La Crosse Boy Is Included Said to Be Well-founded

CINCINNATI, July 27.—The managements of the Reds and Cardinals have entered into a deal which, if consummated, will be one of the biggest ball transfers on record.

The primary purpose of the deal is to gain Miller Huggins as manager of the Reds. The entire trade is Huggins, Konetchy and Oakes of the Cardinals for First Baseman Hoblitzell, Second Baseman Egan, Pitcher Bobby Keefe, Marans, the Cuban outfielder, and Severoid, a catcher. The news of this pending switch of groups of stars will come as a greater surprise in St. Louis than here in Cincinnati, because most of the Cincinnati fans understand, in a measure at least, the conditions that make it desirable that a successor be chosen for Manager Hank O'Day and that Hoblitzell be traded. The first sacker's disagreement with the management has been acute this season.

It is reasonably certain as anything can be in baseball that Huggins will be the next manager of the Reds.

GRIFFITH TO BUY NURSERY

CLEVELAND, Ohio, July 27.—By the close of this season Clark Griffith, part owner and manager of the Washington American league club, will own a minor club from which he may recruit young players. Griffith will buy a club, favorably in the south.

OUTCAST CATCHER GOOD AT TOLEDO

A letter from Walsh, the big catcher who played with the Outcasts this spring and went to Toledo when the Minny league broke up, shows that he is doing well in the American Association. Although he has not been in any games he has been warming up the pitchers and says that he is learning much baseball in the association.

"Walsh should make good in the American Association," said John A. Elliott yesterday, "for he has a good arm, a good head and he is always willing to learn. With such veteran backstops as Land and Carisch to coach him there is no doubt but that he is a coming star. He may not appear behind the bat in a game this year but what he learns while sitting on the bench and by warming up the pitchers will help him and he will probably get a chance to show what he can do next year. The fact that Toledo has two old time catchers in Land and Carisch makes it hard for Walsh to get into the game this year."

Walsh says that Bemis, the Eau Claire right fielder, who is also with Toledo, is making good and that Manager Hartsell is well pleased with him. He made a good showing in the games he has played.

U. S. CHAMP LEADS

WEATHER GOOD FOR BIG BALLOON RACE

KANSAS CITY, Mo., July 27.—Ideal weather prevailed today for the start of the national elimination balloon race. Promptly at five o'clock this afternoon the pilot balloon Kansas City III will take the air, followed by the Uncle Sam, and the race to determine America's representatives in the international races in Germany this fall will be on. Eight balloons will be sent away and the three covering the greatest distance will be chosen for the international race.
